Subject: RE: FL timeline updates & Notice of Hearing

Thanks for the updates and clarifications Rosemary.

Quick question for Simma, Matt and JT. Did yesterday's legislation fix the authorities deficiencies?

Just wanting to close the loop with my management.

Thanks, Kathy

Subject: FL timeline updates & Notice of Hearing

Hi, team –

- 1) See forwarded message below for FDEP's Notice of Hearing on their rules published today (scheduled for 4/2 as expected).
- 2) I spoke with Heather a little while ago and there is a change from the timeline as we understood it at last week's Tallahassee meeting. Realistically, though, they are expecting to need to issue a Notice of Change, with attendant additional public comment period, plus challenges.

3/11 Notice of Hearing published, hearing scheduled for 4/2

4/2 Public hearing

The public comment period ends 4/2. This is different from the understanding last week that a 20-day comment period would follow the hearing.

[unspecified date] FDEP then anticipates issuing a Notice of Change with opportunity for comment

Public comment would add 20 days after the Notice of Change unless another hearing is requested and alters the schedule

The end of the rulemaking process also includes opportunity for challenge, as we've known for a long time (Heather is verifying timelines involved.)

FDEP anticipates they will be challenged.

In our conversation, I noted the 7/1 effective date provided for the draft legislation to make sure Heather was aware of that. My understanding is that governor signature on the legislation would constitute lawful adoption (the threshold for a state to submit an assumption request), and the effective date given for the legislation (7/1) would set the "fully effective" date threshold for EPA approval.
